

## WYOMINGSITES.COM - PART OF THE ZOOM PROSPECTOR SYSTEM

- Properties placed in the [www.wyomingsites.com](http://www.wyomingsites.com) database are available to site selectors who perform searches for properties throughout the U.S. using the Zoom Prospector System.
  - Properties in Wyoming that fit within the search criteria a site selector inputs into the larger system will show up
- Available commercial properties can be placed on the site at no cost
  - Business/Industrial Parks
  - Commercial Buildings for lease or sale
  - Retail Buildings for lease or sale
  - Individual Lots or Building Sites available for commercial or industrial use.
- Real Estate Brokers or Local Economic Development Organizations can be users in the system and place properties within the database

## DEMOGRAPHIC DATA

- Community, County and Statewide demographic data is produced by Applied Geographic Solutions, and is the most up-to-date data
- Data can be based on a single property, showing data within driving times or distances
- Community profiles are done in an infographic style, and are available for use by Local ED groups or Realtors

## PROPOSAL GENERATOR

- Beginning this fall, the Wyoming Business Council will employ the Proposal Generator Tool exclusively as a means of gathering proposals for Business Leads generated by the Business Council.
  - Properties proposed to Business Council Business Leads will be required to be posted in [www.wyomingsites.com](http://www.wyomingsites.com)
  - Will allow for quick response - simply click the properties you want to propose, attach community information or any other specific information requested and submit
  - Training will be offered either on-site in your offices, or by phone or webinar

To register as a user on the site, go to [www.wyomingsites.com](http://www.wyomingsites.com). Click on “Add Properties.” Simply fill out the request form (very short) and click submit. Once approved, you will be notified, and you can begin posting properties to the site.
